

# Top Of The World

AZIATIX

Lights are shining bright tonight  
Yeah  
Surrounded but you're not by my side  
Um  
Drifting away further  
With every step I take  
Now I'm all by myself  
Alone here in this crowded place

Top of the world I only need one trip  
Shooting stars  
I only need one wish  
Money and fame can't fill what I miss  
Lights flash  
See your face yet it's only a glimpse  
You are worth every mile that I go  
Over that rainbow to that pot of gold  
Surrounded by lights all alone  
Feel my love for you  
Even if the world is gone

On top of the world  
I'll be standing  
Calling out for you until the world is gone  
On top of the world I know  
I'll be loving you until the world is gone  
Ah ah ah Ah ah ah  
I'll be loving you until the world is gone  
Hear me calling you  
I'll be loving you until the world is gone  
Ah ah ah Ah ah ah

If the world comes  
Crashing down tonight  
I'll be there  
I'll be standing by your side

I can't have my focus fixed  
On the show  
Rather see your smile shine  
The stars gotta go  
The world is ours  
Fingerprints on the globe  
Nations under our feet  
Lets take seats on our throne  
When I call your name  
Girl we can take it all the way  
You know the love  
Never ends it won't stop  
No need to meet me  
I will take you to the top

On top of the world  
I'll be standing  
Calling out for  
You until the world is gone  
On top of the world I know

I'll be loving you until the world is gone  
Ah ah ah Ah ah ah  
I'll be loving you until the world is gone  
Hear me calling you  
I'll be loving you until the world is gone

After this world is gone  
Our love is always strong  
Curtains never closing  
The show goes on and on

On top of the world  
I'll be standing  
I will love you until the end  
Ah ah ah Ah ah ah  
I'll be loving you until the world is gone  
Hear me calling you  
I'll be loving you until the world is gone  
On top of the world  
I'll be standing  
I will love you until the end
