

## More Than A Law

Aztec Camera

I've seen that recipe  
Lawmen and royalty  
And nothing on earth can take that taste  
And make it something sweet  
I saw the news today  
A broken everything with years to pay  
And nobody else can save us now  
And that's alright by me  
'Cos I say

We make love in the face of it all  
Feel the freedom and the purity  
And what we need is not security  
Something more than a law  
We walk at night in a blind wind  
Through the streets where the rich once lived  
And what we want's beyond the will to win  
Something more than a law

I feel the rain on me  
I'm soaked in memory  
And never will I betray that love  
'Cos that's not love by me  
I know prosperity  
But he could never be a part of me  
The snow and the stone  
Feeling never at home  
Well she's my poetry  
'Cos I say

And when we're lonely  
It's more than lonely  
So we turn around to say something bigger than us  
But then who do you blame when your love is gone?
