

So I Close My Eyes And Make A Wish

Aztec Camera

Yeah dream a dream for me
That one and one will someday be free

Oh boy I know
The crucial blow
They deal us every day
I feel it too
But need for you
To chase your blues away
But if my heart
Should come apart
My love should turn inside
I'll understand
You're just a man
I'll still be on your side

When I close my eyes to trouble
Baby I see you
And now I have the need to double
Everything I do

So I close my eyes and make a wish

Yeah dream a dream for me
That one and one will someday be free
