

Don't Leave My Mind

Azure Ray

We can make plans
I'll give all I can
You were my man
On the gold coast sand

You can go to New Orleans
Take the river front-line
But don't leave my mind

You can go each day takes you
Some place I can't find
But don't leave my mind

We can break plans
I'll keep all I can
You'll be my friend
And start over again

And you can go to New York City
Get a place on the east side
But don't leave my mind

And you can go where no one knows you
Where the winter is kind
But don't leave my mind

Ohhh
And you can go I can't find you
There's no space, there's no time
But don't leave my mind
Don't leave my mind
Don't leave my mind
