

Hold On Love

Azure Ray

Hold on love
Even when i cry all night
Even when i say i don't love you
Just hold on love
So my head gets a little cloudy
And the drink goes straight to my heart
The the words come like a runaway train
In the dark
Just hold on love
Even when i scream and fight
Even when i swear i don't love you
Just hold on tight
And when the darkness falls over
Like a storm cloud in my head
Something inside says it's easier
To push you away but stay and
Hold on love
Even when i cry all night
Even when i swear i don't love you
Just hold on love
Just hold on love
Just hold on love
