

New Resolution

Azure Ray

Follow blind
Heavy eyes hold position
You were right on time
It was a lucky prediction

Move on
Move on
It's like the clock is pacing
The break of dawn

And our hearts are racing
Move on move on
No there's nothing changing
Don't undermine

My new resolution
Just to find
A different light a new direction
Move on move on

Now the records skipping
I won't forget
I won't forget the way you said
Move on

Move on
There's no point in waiting
