

# The Trees Keep Growing

Azure Ray

I never expected you to love me  
The way i loved you  
To have you near  
Was all  
I wanted  
Just to have you near  
It's funny how you can forget there's a world outside yourself  
Where the trees keep growing and the cars keep moving  
Without you there  
Land it's funny how you can forget there's a world outside your  
self  
Where the one who loves you keeps on living  
Without you there
