You go out when you get ready
And you come home when you please
You just love me when you want me baby
And you think it outta be alright with me

When I try to talk, talk to you baby And let you know just how I feel You tell me if I don't like it You know someone else will

Oh, but I done got wise to you baby You're not the only bird in the sky Oh so don't ask me no questions now baby And I, I won't tell you no lies

Because I like to feel arms around me And lips close, close to mine So I don't have to beg you to love me I don't have to beg you all the time

Oh, but I done got wise to you baby You're not the only bird in the sky So now don't you ask me no questions And you know I won't, I won't tell you no lies

Yes you can love me if you want me
Or you keep on playing the field
Because I know if you don't love me
I know there's somebody else that will
