Got 'em Bad

There's no doubt about it A may as well shout about it I got the blues I got'em bad

Yes this awful feeling When you don't have what you thought you had Oh yesterday, yesterday I sang love songs But today I got'em bad

Oh, I didn't know she would leave me I didn't know she was gone Well, at last she should've told me goodbye people But she stole away while I was gone Yes that's what makes me feel so sad people Oh, and today I got'em bad

Oh, I could tell you much more people But I think you already how I feel Oh, I could tell you much, much, much more people But I think you already how I feel Yes, you know I'm hurt beyond explaining people And it's all because I've got a dirty deal
