Hard Working Woman

Got a hard working woman, works hard all day long Got a hard working woman, she works hard all the time She's a hard working woman, I call her that gal of mine

Well, I went uptown and bought her clothes My baby got my money, put me outdoors She's a hard working woman Hard working woman Hard working woman, works hard all the time

Well, I bought her clothes and I bought her hair My baby's gone, gone away somewhere She's a hard working woman Hard working woman Hard working woman Hard working woman, works hard all the time

She works hard all day, doing the best she can When you come home at night, she's got another man She's a hard working woman Hard working woman Hard working woman, works hard all the time

Well, I give her my dough to spend on the line When it comes to loving, she's the gal of mine She's a hard working woman Hard working woman Hard working woman Good loving mama, and I love her all the time
