

## Let's Get Down to Business

B.B. King

I'm glad to see you back, baby  
You been gone such a long, long time  
And now that you're back, baby  
Let's make up for long lost time  
Well, the day that you left me, baby  
I nearly went out of my mind  
I couldn't hardly sleep at night, baby  
Every morning I woke up crying

So let's get down to business  
Yeah, let's get down to business  
Well, let's get down to business, baby  
You been gone such a long time

Now I know that I love you, baby  
And I thought that you loved me, too  
Now, now that we're together, baby  
Tell me what are you going to do  
Well, what made us break up, baby  
I don't know till today  
But if it was my fault, baby  
I swear I'll change my ways

So let's get down to business  
Yeah, let's get down to business  
Well, let's get down to business, baby  
You been gone such a long time

Hey, let's, let's  
Let's get down to business, baby  
Well, well, well  
Let's get down to business  
Yeah, let's get down to business, baby  
You been gone such a long time

I know that I love you, baby  
I say I thought that you loved me, too  
Now, now we're together, baby  
What are you going to do  
I said whatever made us break up, baby  
I don't know till today  
But if it was my fault, baby  
I swear I'll change my ways

So let's get down to business  
Yeah, let's get down to business  
Well, let's get down to business, baby  
You been gone such a long time
