

# Marry You

B.B. King

It's the sugar so sweet  
The kind I like to eat  
You and me  
Tell no one else about it

I'm gonna make you mine  
'Cause I know we've got the time  
Now and then baby  
Hey I want you to know

I wanna marry you  
Isn't that what you want too  
I wanna marry you  
Isn't that what you want too

Come on in the back of my '57  
Let me show you the way  
Way to heaven  
You're looking so sweet, yes you are  
I'll make sure that you got some heat

I've got you on my mind  
You know you've got my time  
Now and then baby  
I want you to know

I wanna marry you  
Isn't that what you want too  
I wanna marry you  
Isn't that what you want too

I'm falling in love with you  
I'm in love with you  
You make all my dreams come true  
Make all my dreams come true  
Falling in love with you  
I wanna marry you

I wanna marry you  
Isn't that what you want too  
I wanna marry you  
Isn't that what you want too
