

# Roll, Roll, Roll

**B.B. King**

From the little town I ran from  
To the city where I strayed  
There's been some good time living  
And some good music played  
And some good loving made  
I like it  
I like it just that way

I wanna roll roll roll forever  
I wanna feel the beat go on  
I wanna roll roll roll forever  
I wanna feel it till it's gone  
I wanna roll roll roll forever  
And live from song to song  
Right there in the music  
Is right where I belong

When I meet my Maker  
With my music in my hand  
He'll smile down when He sees me  
And ask about the band  
I know He'll understand  
He knows life  
And life can be so grand

I wanna roll roll roll forever  
I wanna feel the beat go on  
I wanna roll roll roll forever  
I wanna feel it till it's gone  
I wanna roll roll roll forever  
And live from song to song  
Right there in the music  
Is right where I belong
