When you fight with your lover
She takes you for a fool
She don't care how she hurts you
Long as she's doing what she choose
That's wrong little mama
That's wrong little mama
That's wrong little mama
That ain't the way to do

When you work each day Stay at home every night She'd find a fault with everything Ain't nothin' ever right

That's wrong little mama That's wrong little mama That's wrong little mama That ain't the way to do

And she's out on the weekend She'd come back holdin' her head You ask her for some lovin' She'll say she's half-dead

That's wrong, little mama That's wrong, little mama That's wrong, little mama That ain't the way to do

Oh, it's wrong little mama
Yes, it's wrong little mama
I say, it's wrong little mama
You know it's wrong little mama
Yeah, it's wrong little mamma
