

# You're Losin' Me

B.B. King

If you can't do no better, think I'd better get another that can  
Yes, if you can't do no better, think I'd better get another that can  
You know you're going around and cheap on me  
You're doing nothing but losing a good man

You know life is too short to be worry, and I think you are not to understand  
Yeah, life is too short to be worry think you are not to understand  
You're keep going around and cheap on me  
You ain't doing nothing but losing a good man

If I never said hello to you baby then I won't be say good bye  
Hey, if I never said hello to you baby then I won't be say good bye  
I got my cloths already packed now  
I'm so hurt, I wanna cry

Oh, can you hear me, hear me baby?  
Can you hear me?  
Oh, I got my cloths  
My cloths already packed now  
I'm so hurt, I wanna cry  
I wanna know why you treat me like you do baby  
I wanna never tell me why

Yes, if you can't do me no better baby, think I'd better get another baby that can  
Yes, if you can't do me no better baby, think I'd better get another baby that can  
The way you treat me now baby, you ain't doing nothing but losing a good man

Hey, life is too short to be worry and I think you are not to understand  
Hey, I say life is too short to be worry and I think you are not to understand  
The way you treat me now baby, you ain't doing nothing but losing a good man

What you say now!
