

# Bridge Of Love

B.J. Thomas

There's a gap in the world  
Only love can fill  
And we can bridge that gap  
If we have the will  
No it won't be easy  
We'll need help from above  
But if everybody pitches in  
We can build a bridge of love

Let's build a bridge of love  
Across the sea of hate  
From nation to nation  
Standing through each generation  
Let's build a bridge of love  
Across the sea of hate  
Hand in Hand  
Side by side  
That's what it's gonna take

Then one day we'll cross that  
Bridge to a better life  
And we'll leave behind us  
That old world of strife  
When we reach our new world  
Hate we'll never fear  
And I bet if we could see God's face  
He'd be smiling from ear to ear

Let's build a bridge of love  
Across the sea of hate  
From nation to nation  
Standing through each generation  
Let's build a bridge of love  
Across the sea of hate  
Hand in Hand  
Side by side  
That's what it's gonna take

Let's build a bridge of love  
Across the sea of hate  
From nation to nation  
Standing through each generation  
Let's build a bridge of love  
Across the sea of hate  
Hand in Hand  
Side by side  
That's what it's gonna take

Let's build a bridge of love  
Across the sea of hate  
From nation to nation  
Standing through each generation  
Let's build a bridge of love
