

# Down Isn't So Bad

B.J. Thomas

Down isn't so bad  
When it gets you looking up at life  
To see where you've been now  
And don't wanna be there again

You already knew  
That you were gettin' through to me  
It must have been so tough  
To get me lookin' up

Well down is where you found me  
But up is where I'm goin'  
Now that you're around me  
I can't keep it from showin'  
Grinnin' on my face and singin' ev'ry place I go

Well down is where you found me  
But up is where I'm goin'  
Finally understand all the things I been knowin'  
Take me in your arms and carry me all the way home

Carry me home

Well there are times we all fall in  
Much too deep where we can't swim  
But there's a life saver  
To keep us from cashin' it in

Well down is where you found me  
But up is where I'm goin'  
Now that you're around me  
I can't keep it from showin'  
Grinnin' on my face and singin' ev'ry place I go

Well down is where you found me  
But up is where I'm goin'  
Finally understand all the things I been knowin'  
Take me in your arms and carry me all the way home

Home  
Home

Well down is where you found me  
But up is where I'm goin'  
Now that you're around me  
I can't keep it from showin'  
Grinnin' on my face and singin' ev'ry place I go

Well down is where you found me  
But up is where I'm goin'  
Finally understand all the things I been knowin'  
Take me in your arms and carry me all the way home
