

I'm In Tune (Finding How Good Life Can Be)

B.J. Thomas

The truth was all around me
But I closed my eyes and ears
I went looking for the answers somewhere else
Now I've learned to listen
When I used to only hear
And I found the answers inside myself

I'm in tune
I can see Heaven's heartbeat
In the stars that shine above
And I can feel the power
Of a universal love
With all my imperfections
There's still a place for me
I'm finding how good life can be
I'm in tune

A thousand different teachers
Tried to teach me how to sing
But none of them could show me harmony
I feel so much better now
Singing in the key of love
With a different drummer keeping time for me

I'm in tune
I can see Heaven's heartbeat
In the stars that shine above
And I can feel the power
Of a universal love
With all my imperfections
There's still a place for me
I'm finding how good life can be
I'm in tune
I'm in tune
