

# I Saw Pity In The Face Of A Friend

B.J. Thomas

I saw pity in the face of a friend  
And that's something I don't wanna see again  
With sad eyes he gave me sympathy  
'Cause he knew  
Yes he knew  
That you've been cheatin' on me

Oh I saw pity in the face of a friend  
Even though he tried to hide it with a grin  
Yes he put on a very good act  
But I knew, yes I knew  
You'd been runnin' around behind my back

So I'm taking that road away from you  
Gonna find myself a place to hide  
And when people remember they say  
He was saving face and pride

Oh oh  
I saw pity in the face of my friend  
But for some reason I had to look again  
And there in his eyes  
The truth was plain to see  
It was him, yes it was him  
That you really loved and not me

Oh I saw saw pity in the eyes of my friend  
And it told me that you loved only him  
And not me  
Oh oh I saw pity in the eyes of a friend
