Life

B.J. Thomas

```
You
Can't look behind
Or you'll never find
Where you're going to

Don't
Don't waste your time
Looking behind
At things you can't undo

Life
What it puts you through
Life
The things it makes you do
You turn around
And another dream falls through
But that's life

So don't
Let it get you down
Or turn you around
What people think of you
For you
Will surely find
What's on their minds
Is they're not you

Life
And what it puts you through
Life
The things it makes you do
You turn around
And another dream falls through
But that's life

Walk
Walk right ahead
And never let it be said
That you've given into

Life
Oh and what it puts you through
Life
And what it makes you do

Just hold on tight
'Cause dreams come true
That's life

Live your life
Life
```
