# You Were There To Catch Me

**B.J. Thomas**

You were there to catch me
When I fell in love
Fell in love
You were there to catch me
When I fell in love
Fell in love

The paper moon I was reaching for
Was never really there
And you were there to catch me
When I fell in love
When I fell into your love

When you came my sadness
Walked out the door
Out the door
Your love gave me something
Worth living for
Living for

My life was broken and shattered
But you made the pieces fall right in place
And you were there to catch me
When I fell in love
When I fell into your love

Ev'rytime I slipped and fell
Your arms were open wide
You never turned your back on me
And never said goodbye

And you were there to catch me
When I fell in love
Fell in love
But now you're right beside me
When I need your love
Need your love

Life a leaf I was surely falling
And you were the ground
You were there to catch me
When I fell in love
When I fell into your love

You were there to catch me
When I fell in love
When I fell into your love

You were there to catch me
When I fell in love
When I fell into your love

You were there to catch me
When I fell in love
When I fell into your love

You were there to catch me

When I fell in love
When I fell into your love

You were there to catch me
When I fell in love
When I fell into your love

When I fell in love
When I fell into your love

You were there to catch me
When I fell in love
When I fell into your love
