B-Legit

I clear the corners like homers with the bass is strong
They can't stand to see me with it so I fakes no funk
No punk in my bloodline, just killas and shit
Ride to town like the biggest dope dealers with grip, bitch
It ain't easy being wealthy, stayin' healthy
Knowin' sucka muthufuckas they want to melt me
But I ain't ice cream, butter, or the cheddar cheese
You better peep the Beretta of a nigga sleep

Niggaz, they knowin' about the city that I'm comin' out of
Check your shit, you might come up short of your hefty grip
We night crawlers straight underground, jackin' you for your shit nigga
What you gonna do now, when you see us niggas comin' through
Grab your bitch and your kids, we want 'em too, yeah
'Cause playaz come out when it's sunny but when night time comes
Those playaz turn into gangstas and get they money

All the time I'm pumpin' dope for those
Who underestimate the propa shit and won't quit
'Til I accumulate the propa grip, so don't trip

From the gate keep it straight when fuckin' with my crew
'Cause I'll be goin' up out my way to keep this shit straight
Mobbed down about the town like a pancake
Earthquake, I'm shakin' 'em up like my hurricane
Applyin' pressure whenever and it's a damn shame
