

Can I Fly?

B.o.B

Well as this cold world turns round and round
So much tragedy have I found
If I could take it away I'd do that now
Cause only in my dreams can I smile

So if I go to sleep, don't wake me up
Cause only in my dreams can I fly away
can I fly away, can I fly away, can I fly away,
fly away

So God bless my soul
The pain I feel won't nobody know
Cause this world is evil,
and every time I wake up I wanna go home
So what am I to do, but sing a song for you
Cause I feel you also,
thats why I never let you go
They say I lost my mind
But I did that so long ago
So when I close my eyes, leave me alone

So if I go to sleep, don't wake me up
Cause only in my dreams can I fly away
can I fly away, can I fly away, can I fly away,
fly away

Somebody pray for me, I believe I can fly,
yeah crazy me
But at night these angels be singing to me like
la la la la la la la la la
So as I lay awake at night I drift away into the sky

And that's where I reside, oh yeah, oh yeah
So pray that I'll be just fine
I'll see you when it's time
I'll see you when it's time

So if I go to sleep, don't wake me up
Cause only in my dreams can I fly away
can I fly away, can I fly away, can I fly away,
fly away

So much tragedy have I found
