

Negative Space

B.o.B

The things that we think but don't really say
The feelings beneath, that never escape
We all try so hard to be something great
Sometimes we just need some negative space, some negative spac-
Ehh, Ehh, Ehh, Ehh

And she said
You don't love me like you used to
You don't call me like you used to
You should do it like you used to
(Space)
We always knew this end in bad blood
Who thought the end would be so close
We always know this never add up
The watered gardens that don't grow
We always knew this end in bad blood
Who thought the end would be so close
We always know this never add up
The watered gardens that don't grow
And I feel your lust
I can feel your loneliness within your touch
I just wanna know how do we say trust
To make this empty promises that don't mean much
Yeah, yeah, yeah

The things that we think but don't really say
The feelings beneath, that never escape
We all try so hard to be something great
Sometimes we just need some negative space, some negative spac-
Ehh, Ehh, Ehh, Ehh

I feel your lust
And I can feel your loneliness within your touch
I just wanna know how do we say trust
To make this empty promises that don't mean much
Yeah
