

## Jump Down

B\*Witched

I woke up to find your face on my mind  
The sun always shines on my garden  
I told you before, just knock on my door  
'Cause you know the score, it's my party

You ran away with my spoon  
You've stolen my heart, always laughin'  
I jumped over moon, right from the start  
You always make me feel good

Jump down, I've never believed in love  
Till now I've never believed in us  
Jump down, I've never believed  
I've never believed in love  
That's why I'm letting you know

You're always around stamping the ground  
The letter I found was yours truly  
So plain to see what you wrote to me  
Was positively unruly

You ran away with my spoon  
You've stolen my heart, always laughin'  
I jumped over moon, right from the start  
You always make me feel, always make me feel good

Jump down, I've never believed in love  
Till now I've never believed in us  
Jump down, I've never believed  
I've never believed in love  
That's why I'm letting you know

Whoa, letting you know  
Whoa, I don't want you to go  
Oh, you make me feel good

Jump down, I've never believed in love  
Till now I've never believed in us  
Jump down, I've never believed  
I've never believed in love  
Yeah, yeah, letting you know

Jump down, I've never believed in love  
Till now I've never believed in us  
Jump down, I've never believed  
I've never believed in love  
That's why I'm letting you know

Jump down
