

Like The Rose

B*Witched

Every little word
With every lesson learned
I think I know why hearts are made of stone
Every little pain
Fans a bitter flame
Nothing stops me loving you

Can't you see that we belong
Oh how I want it to be
So tell me do you feel the way I feel

Baby like the rose
Oh darling you put color in my life
Baby take my heart forever
Cause I don't wanna be afraid
No no

Turn another page
The story will never fade
Sleep with thoughts of you until daylight
And when you're far away
Forever love will stay
Keep this loving feeling deep inside

Can't you see that we belong
Oh how I want it to be
So tell me do you feel the way I feel

Cos you're the color in my life
