

Rev It Up

B*Witched

Hurry up we're all ready
And all you need to bring is yourself
Gonna go slow take it steady
Cause there's no room for nobody else

Sun is high, sky is blue
It's so bright, we're just waitin for you (2x)
(We know what you're doin)
We know what to do

Rev it up I said
(Don't waste time)
We know where we're goin
(It's alright)
Rev it up no lead
(the coast line)
Where the wind is blowin
(It's so fine)

We'll have fun we'll be spashin
Lazin on the sand by the sea
So son't worry bout the fashion
You can wear your blue dungarees

Sun is high, sky is blue
It's so bright, we're just waitin for you (2x)
(We know what you're doin)
We know what to do
