

Someday

B*Witched

It's kinda funny tomorrow is yesterday
It feels so good we'll slide on a rainbow
Catchin' a moonbeam or two, oh, oh

Don't tell me I'm a dreamer 'cause I don't want to know
(So let me take you there)

I know we're gonna get there someday
(I know we're gonna get there someday)
An' don't you know we're gonna get there someday
(Oh, don't you know we're gonna get there someday)

I'll tell you something, life is a mystery
It'll be so good sail in a teacup
Drift on a milky white sea, oh, oh

Don't come tellin' me, I'm a dreamer 'cause I don't want to know
w
(So let me take you there)

I know we're gonna get there someday
(I know we're gonna get there someday)
Oh yeah, an' don't you know we're gonna get there someday, some
day
(Oh, don't you know we're gonna get there someday)

Everyone has their crazy world
(Everyone, crazy world)
And everyone, they want to just say
And you're the one
(You're the one)
You're the only one, I want to share, I'll share with you

Because I know, we're gonna get there someday, yeah, yeah

I know we're gonna get there someday, someday
(I know we're gonna get there someday)
An' don't you know we're gonna get there someday, oh, oh
(Oh, don't you know, don't you know)
(We're gonna get there someday)

I know we're gonna get there someday, someday
(I know don't you know we're gonna get there someday)
An' don't you know we're gonna get there someday
(Oh, don't you know)
