

# Together We'll Be Fine

B\*Witched

Staring at the walls  
Sitting on this bed  
Waiting for the phone to ring  
To see what lies ahead

Memories on the table  
Clothes thrown on the floor  
Trace what was going to be  
It not there anymore

But we'll get through this somehow  
Cause we got each other now  
Ooh times change  
Together we'll be fine  
You and me yeah  
It not easy all the time  
Who would think it come to this  
Heart it's so so hard  
You and me yeah  
Together we'll be fine

Voices in our heads  
Silence in the room  
Conversations that we had  
Words we want to say  
Life is rolling by  
As we understand  
Smiles are coming back again  
Powers in our hands

But we'll get through this somehow  
Cause we got each other now  
Ooh times change  
Together we'll be fine  
You and me yeah  
It not easy all the time  
Who would think it come to this  
Heart it's so so hard  
you and me yeah  
Together we'll be fine  
Cause we got each other now

Ooh times change  
Together we'll be fine  
You and me yeah  
It not easy all the time  
Who would think it come to this  
Heart it's so so hard  
you and me  
Together we'll be fine

Together we'll be fine

Cause we got each other now
