

One Kiss

B2K

She was so sincere
The way she grabbed my hand
And introduced herself
Like no one else has done before
And I can't lie
I was hypnotized
By the smile of the talk and the style of the walk
And when she tried to kiss me
I just sighed
And said to myself this can't be real
Lied to my mind but my heart it could feel
Something was wrong (don't worry)
That's what she said
Now I
Look back on the night that changed my life
I remember the things
That made me call at night
And to think that I betrayed me for one kiss

One kiss for all my trust
One kiss for all my love
One kiss cause me to break
One kiss
I just hate it
One kiss
One kiss
One kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss

[Verse 2:]

I was so far gone
She could do no wrong
Until I caught her in the act
Down right getting it on
How could I not see
That eventually she would break my heart
Where did it all start
It started with a little bitty kiss

[Chorus:]

One kiss for all my trust
One kiss for all my love
One kiss cause me to break
One kiss
I just hate it
One kiss
One kiss
One kiss
That's where I started feeling
One kiss felt so good
But I never should've had that kiss

[Hook]

Mistook that kiss for kindness
How could I be so blinded

Should've ran
Instead
I made it easy
But I won't let my heart get hurt
It was all about a lesson learned
And the lesson that I learned was taught to me by one kiss

[Repeat Chorus]
