

# Standing In The Rain

Babe Ruth

Standing in the rain  
Living with the strain  
Life is just a game  
For playing  
Never learned the lie  
You made when we started  
Now you've gone away I'm paying

Where am I going  
I don't know  
Life is a misery  
Oh don't it show

Seems the way to be  
For those who cannot see  
Walking in the dark  
Forever

Signs along the street  
That only leads us nowhere  
We're be on our own  
Together

Where am I going?  
I don't know  
Life is a misery  
Oh don't it show

On and on we go  
Far away from here  
Drifting like a time machine  
Gone by  
All I need is time  
Is it such a crime?  
You know what its like to happiness  
Has left you behind

Standing in the rain  
Living with the strain  
Will it be the same tomorrow?  
Is there any chance  
That we can get together  
I might as well have you than sorrow

Where am I going?  
I don't know  
Life is a misery  
Oh don't it show
