

And why?
Every time the fire is burning
I pull away the kindling
Pour gasoline on fire

On fire
And why?
Always got to do that thing
Do that thing to me

To me
And why?
Everytime you're smiling
You smile from ear to ear

Mine is upside down
Up up side down
Upside down
And why?

Always got to do that thing
Do that thing to me
And why?
Everytime you're drowning

You're sinking under water
I put my hand down to you
And pull me right under
Right under with you

And why?
Always got to do that thing
Do that thing to me
And why?

Everytime the sun is shining
It shines so bright
So bright
I can't find sky

And why?
Always got to do that thing
Do that thing to me
