

## Fork Down Throat

Babes in Toyland

Take your fucking fork  
And shove it down your own throat  
And stop pretending to to try to be  
That infamous stupid raincoat  
Well I dare to confess  
Cause there's an army with me  
Nine oceans away  
Don't even bother me  
Well I can't believe it  
Things are building from memories they guard  
And still you're getting in my way  
Get out of my way  
Nine oceans away  
Don't even bother me  
I can't believe it  
Gaze awe vision from my incision  
Starved skinny little man  
Don't even bother me  
I can't believe it  
Gaze awe vision from my incision  
Starved skinny little jack  
Face up  
Catholic black  
You're a writer  
You better write quick  
Cause your papers on fire
