

Spun

Babes in Toyland

I live inside
All invited inside
Eyes flutter feathers
My hairs fair like weather
I've blown my recovery
Living is nice

When you're spun like a kite
Sugar and tea and cream
Looks like the sea is green with rivalry
Now that I know just what you're all about
I want out
I live inside

All invited inside
Sugar and tea and cream
Looks like the sea is green with rivalry
Now that I know just what you're all about
I want out
Life is real when you're dreaming
Life's a dream when you're reeling
Now I want out
