

Vomit Heart

Babes in Toyland

I wear the same face as you
And you share my sick point of view
I do love you

Vomit my heart pull my head apart
Vomit my heart pull my legs apart
I wear the same face as you
And you share my sick point of view
I do love you
Mad Pilot fly high to the sky
Just to hang with the Stars
Then rip off their arms with Carousel Charm

Vomit my heart pull my head apart
Vomit my heart pull my legs apart
My brains a carnival all aflame
Cause we're not the same it's all rearranged
I do love you Vomit my Heart
