

Fireflies

Babybird

1. There's bugs in the jam jar
They choking
They forgot to put in holes
Their legs are broken
With their wings sprinkled on the floor

R: If I find them, I'm gonna kill them
It wasn't me it was my friends
If I find them, I'm gonna kill them
It wasn't me it was my friends

2. There's bugs in the room
And they're listening
I can't see the fire in their tails
The fireflies are hiding
And listening to every single word

R: If I find them... (2x)

R: If I find them... (2x)
