

Out of Sight

Babybird

Sometimes when you're homeless
And no-one comes down
Don't make a sound
Keep your mouth shut
Sleep on the couch

Don't let her out of your sight
Look at your kid
Look at your wife
This was your life
Your life was her life
Don't let her out of your sight

Sometimes when she comes round
She's as cold as ice cream
Like a hot knife
Your tattooed fingers
Can't touch her any more

Don't let her out of your sight
Look at your kid
Look at your wife
This was your life
Your life was her life
Don't let her out of your sight

Don't let her out of your sight
Look at your kid
Look at your wife
This was your life
Your life was her life
Now you've gone and let her out of your sight

Sometimes when you're lonely
And no-one comes around
It's too late
Make it right now
You were wrong to leave

Don't let her out of your sight
Look at your kid
Look at your wife
This was your life
Your life was her life
Now you've gone and let her out of your sight
