

Wave Your Hands

Babybird

We got love on our fingers
And hate on our knuckles
We just can't get it off
We just can't get it off

We might as well give it up
Throw our hands in the air
And wave them in the air
Like you just don't care

We got an apple in our forehead
And love's got a gun
We just can't shake it off
We just can't shake it off

We might as well give it up
Throw our hands in the air
And wave them in the air
Like you just don't care

L-O-V-E on our fingers
L-O-V-E on our knuckles
I just can't get enough
We just can't get enough

We might as well give it up
Throw our hands in the air
And wave them in the air
