

I Keep Callin'

Babyface

Baby baby baby
Aint gon lie to you
Girl you made a big mis-take
Yes you did
Now I'm going crazy crazy crazy
Cuz I am thinking bout you night and day
(Yea)

I keep callin' your name
Cuz it just aint the same
Cant get you outta my head
Things have changed since you left
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?

What was I thinking of?
Disrespecting your love (mustve been the fool in me)
No I never meant to hurt you (no I neva)
Never meant to desert you (shouldve neva)
Now Im all alone
And Im so sorry sorry

I keep callin' your name
Cuz it just aint the same
Cant get you outta my head
Things have changed since you left
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?

A man's only hope
When he's got a woman to call his own
Imagine how I feel
Without you baby
I can be myself
I keep wishin I was someone else
Without you here wit me

Callin' your name
Cuz it just aint the same
Cant get you outta my head
Things have changed since you left
I keep hoping someday
You'll come running my way (where are you baby)
Are you comin comin back to me?
Are you comin home?

Cant get you outta my head
Things have changed since you left
