It's No Crime

Calling all cars Calling all cars I never thought that I could feel this way You came around and Brought about a change in me I was a typical guy You came along and blew my mind You were runnin' fast I was runnin' slow Everybody said that it would not work Love came and set me free You were standing there to rescue me Love caught it, we thought Why can't we be in love, well Why, it's no crime If I'm guilty of love Let me do my time Why, it's no crime Everybody needs love And baby (so do I) You never thought love Came so easily No doubt about it Never in your dreams, no way You were a typical girl You came along and changed my world I walk slow You walk fast Everybody said that it could not last Love came inside of me Never knew how good our love could be Love caught it, we thought Why can't we be in love, well I've spent half a lifetime Waiting for someone You say I know it was you They don't recommend it I don't understand it I've been reprimanded 'Cause I'm in love with you Calling all cars Calling all cars You were a typical girl You came along and changed my world I walk slow You walk fast Everybody said that it could not last

Love came inside of me

Never knew how good our love could be

Babyface

Love caught it, we thought Why can't we be in love, well Why, why So do I, so do I So do I, so do I Oh so do I

Why
