

## Love and Devotion

Babyface

Love and devotion  
That's what I give you  
Honest emotions  
That's what I feel  
Fire and desire  
Whenever I'm near you  
My love comes down

And I want to love you  
Wherever you go  
I want to hold you  
Never let go  
I want to love you girl  
I want you close and I want you right now  
Oh girl

Love and affection  
That's what I bring you  
A heart full of passion  
And girl it's for real  
No pain is pleasure  
I promise to reassure  
And love you down

And I want to love you  
Wherever you go  
I want to hold you  
Never let go  
I want to love you girl  
I want you close and I want you right now  
Oh girl

Baby baby baby

And I want to love you  
Wherever you go  
I want to hold you  
Never let go  
I want to love you girl  
I want you close and I want you right now  
Oh girl
