

Outside In / Inside Out

Babyface

How can I forget about the day I first met you
The way you walked in to the room with so much attitude
Sometimes people go through life
Searching for a sign
Girl I know that I found mine
When I look into your eyes

Outside in, inside out, you do it for me ya knock me out a sigh
t to
See from head to toe
Had to let you know
Outside in, inside out, you do it for me ya knock me out a sigh
t to see from
Head to toe
Had to let you know

Girl I lost my mind I saw you dancin on the floor
You looked so damn fly sweat started comin from my pores
Soemtimes people go through life
Searching for the one
Girl I know that I found mine
And I know its love

Tell me (when and if) I can see you
(How's about) tomorrow night
No one (has to know what) we do (what we do til ya say) until s
ay it's alright
(its alright, its alright baby, its alright baby)
It's alright baby, it's alright baby
