

# Saturday

Babyface

Just gonna chill tonight  
With you by my side  
And look into your eyes  
We gonna mellow out  
Lay back on the couch  
And maybe just unwind  
And we don't care about what others might say  
That we don't never ever go anyplace  
'Cause we're all that we need  
And that's where we want to be  
'Cause we're so, so, so much in love

And that's the way love flows  
That's the way it goes  
On a saturday night (Saturday, S, S, S, Saturday)  
That's the way love flows  
Everybody knows  
Couldn't be more right  
(Saturday, S, S, S, Saturday)

Maybe take a ride  
By the oceanside  
And watch the sun go down  
Play the radio  
Jam to somethin' slow  
Hey, tell me how that sounds  
And as the night takes over the day  
Let's initiate the love that we'll make  
And that's just what we'll do  
'Cause we're into me and you  
Because we're so, so, so much in love

And as the night takes over the day  
Let's initiate the love that we'll make  
And that's just what we'll do  
'Cause we're into me and you  
'Cause we're so, so, so much, so much in love
