

## Sweat

Babyface

There you go, there you go girl  
Don't you start with me  
Cause I don't really wanna hear it now  
Let it go, let it go girl  
What we keep fighting about baby  
It's feeling like a merry go round

I don't really wanna  
I don't really wanna think or talk about it  
Cause all we seem to do is  
All we seem to do is scream and shout about it  
Cause there you go, there you go boy  
You just keep breaking me down  
Spinning my head around

So if you really wanna fight  
We can take it to the bed tonight  
(Let's sweat it out)  
And if you really wanna scream  
I can make you scream tonight  
(Let's sweat it out)  
Through the good (through the good)  
Through the bad (through the bad)  
Be the best fight you'll ever had  
Make you say ooh ooh ooh ooh ooh  
Forget that you were ever mad

There you go, there you go girl  
You don't get smart with me  
Cause I can tell you really want it now, hey babe  
Take it slow, take it slow girl  
You just get breaking me down baby  
Working me inside and out

I don't really wanna  
I don't really wanna think or talk about it  
Cause all we seem to do is  
All we seem do is scream and shout about it  
Cause there you go, there you go boy  
You just keep breaking me down  
Spinning my head around

So if you really wanna fight  
We can take it to the bed tonight  
(Let's sweat it out)  
And if you really wanna scream  
I can make you scream tonight  
(Let's sweat it out)  
Through the good (through the good)  
Through the bad (through the bad)  
Be the best fight you'll ever had  
Make you say ooh ooh ooh ooh ooh  
Forget that you were ever mad

I don't really wanna  
I don't really wanna think or talk about it  
Cause all we seem to do is

All we seem do is scream and shout about it  
Cause there you go, there you go boy  
You just keep breaking me down  
Spinning my head around

So if you really wanna fight  
We can take it to the bed tonight  
(We can take it to the bed tonight)  
And if you really wanna scream  
I can make you scream tonight  
(I can make you scream, baby)  
Through the good (through the good)  
Through the bad (through the bad)  
Be the best fight you'll ever had  
Make you say ooh ooh ooh ooh ooh  
Forget that you were ever mad
