

# The Loneliness

Babyface

I'm sitting here thinking bout  
How I'm gonna do without  
You around in my life  
And how am I gon' get by  
Aint got no days, just lonely nights  
If you want the truth, well girl I'm not alright  
Feel out of place, and out of time  
I think I'm gonna lose my mind

So tell me how you feel (I'm lonely)  
Are you for real? (so lonely)  
Do you still think of me (I think of you)  
Baby still (you only)  
Do you dream of me at night  
(it's like I dream you all the time) so lonely  
Oh let me tell you how it feels  
(it's like everyday I die)  
Wish I was dreamin but it's real  
(when I open up my eyes)  
Oh let me tell you how it feels  
(and don't see your pretty face)  
I think that I will never love again

I miss your face, I miss your kiss  
I even miss the arguments  
That we would have from time to time  
I miss you standing by my side  
I'm dying here, it's clear to see  
If there aint no you, God knows there aint no me  
Don't wanna live, I wanna die  
If I can't have you in my life
