

# The Soldier Song

Babyface

In another day or so  
He's be one year older  
God bless his soul  
Barely 18 years old  
When he became a soldier  
God bless his soul  
It's not like he didn't know  
The way all he had to cope  
But he never made it home

Well I hope and pray  
That when god called his name  
He did not die in vain  
I like to think he died for you and me  
And I hope one day  
When we look back again  
And he's just a memory  
That we'll appreciate and respect the life he gave

In another day or so  
She might have been a mother  
God bless her soul  
But she'll never got to hold  
Her baby girl knows her  
God bless their souls  
It's not like she didn't know  
The way that things could go  
But she never made it home

Well I hope and pray  
That when god called her name  
She did not die in vain  
I like to think she died for you and me  
And I hope one day  
When we look back again  
And she's just a memory  
That we'll appreciate and respect the life she gave

Well I hope and pray  
That when god called their name  
They did not die in vain  
I like to think they died for you and me  
And I hope one day  
When we look back again  
And they're just a memory  
That we'll appreciate and respect the life they gave
