

# We've Got Love

Babyface

We done pain and sorrow  
We done been through change  
We done had way better days, yes sir  
But I seen tomorrow  
I ain't see no rain  
Cause our sun's gonna shine again

I been thinking 'bout it  
Ain't no doubt about it  
We got something that the world  
Just can't explain  
It was the one thing  
That makes it always work out  
It's cause we got love, love, love, love, love  
If we got nothin' else  
We got love  
It's cause we got love, love, love, love, love  
At least that's something, yes  
We got love

And the world goes round and round, round and round  
And the world goes round and round  
And the world goes round and round  
Around in circles

We didn't have no money  
Our bills ain't been paid  
Coulda lost 'bout everything  
But we climbed that mountain  
And we found a way  
And we back on top again

I been thinking 'bout it  
Ain't no doubt about it  
Girl, we got something that the world  
Just can't explain  
It was the one thing  
That makes it always work out  
It's cause we got love, love, love, love, love  
If we got nothin' else  
We got love  
It's cause we got love, love, love, love, love  
At least that's something, yes  
We got love

And the world goes round and round, round and round  
And the world goes round and round  
And the world goes round and round  
Around in circles

I been thinking 'bout it  
Ain't no doubt about it  
Girl, we got something that the world  
Just can't explain  
It was the one thing  
That makes it always work out  
It's cause we got love, love, love, love, love

If we got nothin' else  
We got love  
It's cause we got love, love, love, love, love  
At least that's something, yes  
We got love
