

## With Him

Babyface

So ya never meant to hurt nobody  
Well I think your full of it  
'Cause if ya really really didn't wanna hurt nobody  
You wouldn't slept with my best friend  
And I bring insult to my injury  
You weren't a bit discrete  
And while the world stood witness  
To my embarrassment  
You put a knife inside of me

How could you fall in love with him  
How could you give your heart to him  
Thought we'd grow old  
As lovers  
Together til' the end  
How could you fall  
Fall in love with him

Now I know we've had our, up and downs  
And that I do admit  
But sometimes lovers go astray  
But you've made it permanent  
Oh I can't be there understanding  
My heart's just not that big (no it ain't, no it ain't)  
And I can take the pain  
Of infidelity  
But I can't take you with him

Thought we'd grow old  
As lovers  
Together til' the end  
How could you fall  
Fall in love with him
