

# No Competition

Babylon Circus

Likka child at school must fight fi get a place  
-Get a place  
Dem will take you for a fool if ya can't run that race  
-Run that race

Dem will take you for a fool  
If ya can't run that race

Leaming the rule very early  
Big fish eating down the small one  
That's the way it's goin to be  
And if you can't face it you'd better abandon

No no competition  
Don't tell me about it  
No no no no competition  
Now we must try to get away from it

While i go run i go surpass myself and nobody else  
I give you the head start you set me the pace  
Don't need to prove superiority  
No matter if you're stronger than me

Dem will take a for a fool  
If ya can't run that the race

I can reach up mister Karl Lewis  
I will do my best and i just can't miss  
Never get first but never give up  
'Cause we're not looking for the same cup

No no competition  
Don't tell me about it  
No no no no competition  
Now we must try to get away from it

People shout in the stadium  
One team reach the top and one will go to di bottom  
Some a dem take it very serious  
Sometimes get dangerous

See that yout'man waiting' at the traffic light  
Become predator when he gets on road  
Go out to party as you run to a fight  
Just can't let another one pass forward

Some a dem take it very serious  
Sometimes get dangerous

No no competition  
Don't tell me about it  
No no no no competition  
Now we must try to get away from it
