

# Revelations

Babysambles

I dont want to leave my room  
I'm happy in my dust and gloom  
and I have been ever since  
the revelations began  
ever since the revelations began

when the revelation begun  
man i just know i say a long lung lung?  
way back when upon the room of albion  
the first anti-christ was napoleon

that's so typical of you,  
so typical of me oh me oh me oh  
way up on the numbers, high up on the numbers  
nobody could see what you see in me oh me oh  
way up on the numbers, upon the numbers  
two wrongs dont make a right  
but for five minutes it felt alright

(blargh?) when the revelation begun  
man i just know i say a long lung lung?  
way back when upon the room of albion  
the first anti-christ was napoleon  
and hitler is the second one  
(garble?) manifest in a worldwide satan  
king soloman was the wisest man  
but yet still he get tricked by a woman

that's so typical of you  
so typical of me oh me oh me oh  
way up on the numbers, high up on the numbers  
nobody could see, nobody believed  
way up on the numbers, high up on the numbers  
one and one is three, if you throw in one for free, oh  
free me  
upon the numbers, upon the numbers

(wahssaid)?, just walk the walk, talk the talk  
Billy Bilo cant smoke a pipe in peace, too much  
bothera, too much police.

i dont want to leave my room  
quite happy in my dust and gloom  
and i have been ever since  
the revelations began  
ever since the revelations began  
ever since the revelations began  
ever since the revelations began
